

Table of Contents by Chapter

GUIDED SKILL SUPPORT

Chapter	Topic
Chapter 1	Data Displays Area and Perimeter Describing and Extending Patterns Place Value and Rounding
Chapter 2	Multiplying With Area Models Factors, Multiples, and the Distributive Property Adding and Subtracting Multi-Digit Decimals
Chapter 3	Equivalent Fractions Fraction–Decimal–Percent Equivalents Adding and Subtracting Fractions Locating Integers on a Number Line Rational Numbers and Absolute Value Graphing in Four Quadrants
Chapter 4	Writing Variable Expressions Using Variable Expressions Adding and Subtracting With Mixed Numbers Ratios
Chapter 5	Multiplying Fractions Dividing Fractions Multiplying Decimals and Percents Area of Polygons
Chapter 6	Long Division Order of Operations Area and Perimeter With Algebra Tiles Combining Like Terms Evaluating Expressions
Chapter 7	Rates and Unit Rates Dividing Decimals Using the Distributive Property With Variables Writing and Solving Equations Graphing and Solving Inequalities
Chapter 8	Measures of Central Tendency and Variability Box Plots Distance, Rate, and Time Converting Units
Chapter 9	Exponents Volume and Surface Area of Prisms Calculating and Using Percents
