

Table of Contents by Chapter

GUIDED SKILL SUPPORT

Chapter	Topic	Chapter	Topic
Chapter 1	Areas of Quadrilaterals and Triangles Simple Probability Measures of Central Tendency Choosing a Scale Equivalent Fractions Adding and Subtracting Fractions	Chapter 6	Comparing Quantities Graphing and Solving Inequalities Solving Algebraic Equations Solving Equations in Context
Chapter 2	Diamond Problems Arithmetic Operations With Decimals Fraction-Decimal-Percent Equivalents Adding Integers Multiplying Integers Multiplying Fractions Graphing in Four Quadrants	Chapter 7	Distance, Rate, and Time Scaling to Solve Problems Equations With Fractional Coefficients Percent Increase and Decrease Simple Interest Solving Proportions
Chapter 3	Order of Operations Subtracting Integers Connecting Addition and Subtraction Multiplying Decimals and Percents Dividing Integers Dividing Fraction Properties of Addition and Multiplication	Chapter 8	Comparing Distributions Angles and Angle Pair Relationships Triangle Properties
Chapter 4	Scaling Figures and Scale Factor Proportional Relationships Rates and Unit Rates Perimeter and Area With Algebra Tiles Combining Like terms Distributive property With Variables Algebraic Expressions and Zero Pairs	Chapter 9	Circumference and Area of Circles Area of Composite Shapes Volume and Surface Area of Prisms
Chapter 5	Solving Percent Problems Using Diagrams Ratios Independent and Dependent Events Compound Events Writing Equations for Word Problems
