

Table of Contents by Chapter

GUIDED SKILL SUPPORT

Chapter	Topic
Chapter 1	Diamond Problems Describing and Extending Patterns Graphing in Four Quadrants Writing Equations for Word Problems Box Plots Proportional Relationships
Chapter 2	Combining Like Terms Rewriting Expressions Comparing Quantities Solving Equations
Chapter 3	Tables, Graphs, and Rules Distributive Property
Chapter 4	Multiple Representations Linear Graphs Using $y = mx + b$
Chapter 5	Solving Equations With Multiple Variables Solving Equations With Fractional Coefficients
Chapter 6	Rigid Transformations Similar Figures Scaling to Solve Problems
Chapter 7	Scatter Plots and Trend Lines Slope
Chapter 8	Exponents and Scientific Notation
Chapter 9	Properties of Angles, Lines, and Triangles Right Triangle Theorem
Chapter 10	Volume and Surface Area of a Cylinder Volume of Pyramids and Cones Volume of Spheres
